IEEE Milestone Program Administrator

IEEE History Center

Re: Site owner permission to place IEEE Milestone plaque commemorating Project Diana- Birthplace of Communications in Space and the science of Radar Astronomy.

Dear IEEE Milestone Administrator,

Wall Township is pleased to confirm its consent to host the proposed IEEE Milestone plaque commemorating Project Diana and to permit the plaque to be installed at 2300 Marconi Road in a place where the plaque will be viewable by the public. The plaque will be inside the TIROS satellite command control center (building 9162) near the IEE TIROS Milestone plaque.

It is my understanding, the bronze plaque, will be 12 inches x 18 inches, and carry a citation describing the technical achievement being recognized as a milestone. The cost of installation will be borne by the IEEE organizational unit sponsoring the milestone, and the plaque will remain the property of IEEE. Should the plaque need to be removed for reasons such as building renovation, Wall Township or InfoAge Science History Center will notify the IEEE History Center so that IEEE can make agreements for the care of the plaques.

Thank you for your continued interest and recognition.

Sincerely,

Jeffry L. Bertrand
