

IEEE_ORGANIZATIONAL_UNIT_FOR_2019-05

December 21, 2021

TO
THE IEEE HISTORY COMMITTEE

1. **Only one** IEEE Organizational Unit will be involved with the IEEE Milestone Proposal 2019-05 entitled: *Semiconductor Crystal Diode Detector, 1899-1901*. submitted on July 29, 2019.

2. **That IEEE Organizational Unit is IEEE Kharagpur (India) Section in Region 10.**

3. UNIQUE TO IEEE, This IEEE Kharagpur Section (India) in Region 10, established on May 13, 1985, is a single Technological Research University (Indian Institute of Technology, Kharagpur) based sovereign IEEE Section, territorially *completely inside* the IEEE Kolkata (Calcutta) Section like the Holy Vatican City in Rome, Italy.

4. The IEEE Kharagpur (India) Section in Region 10 will monitor the Milestone Plaque and is currently waiting patiently to pay for the Milestone Plaque, with U.S. Funds in the U.S. for which, the Proposal status has to move, according to the current set up, from category B.1 to category C via category B.3 and B5.1. The proposer needs to be informed by January 31, 2022 what precisely is holding up this movement so that remedial actions could be taken by the Section and the Proposer promptly.

Respectfully,

 December 21, 2021

(Dr. Probir K. Bondyopadhyay)
Proposer of the IEEE Milestone 2019-05
