World Air Conditioner Demand by Region

June 2019

The Japan Refrigeration and Air Conditioning Industry Association

The Japan Refrigeration and Air Conditioning Industry Association (JRAIA) has just summarized the estimated results of 2018 air conditioner (AC) demand in the main countries around the world. These estimates are performed by the JRAIA's Air Conditioning Global Committee every year and were collected this time for AC demand in the main countries during the past six years from 2013 to 2018.

Note: The AC demand summarized in this document stands for the total AC demand for houses, buildings, and other structures comprising demand of "Room Air Conditioners (RAC)," including window type and small-sized split type ACs as well as "Commercial Air Conditioners." The breakdown for RAC demand is given only from 2016 to 2018. The breakdown for Commercial Air Conditioners demand is given only from 2013 to 2018.

1. Overview

1) Overall AC Demand

The 2018 world AC demand is estimated to reach 110.97 million units, which is the same as the previous year. When dividing the 2018 AC demand into the main markets of Japan, China, Asian countries other than Japan and China, Europe, North America, and other countries, the largest market is China, whose demand reached 44.63 million units with a 3% decrease. Chinese demand occupies 40.2% of the total world demand. The second largest market is Asia, excluding Japan and China, whose demand reached 17.82 million units. The third largest market is North America, whose demand reached 15.59 million units.

Japan reached 10.52 million units, followed by Europe with 6.91 million units, and Latin America with 6.83 million units.

2) "Room Air Conditioners (RAC)"

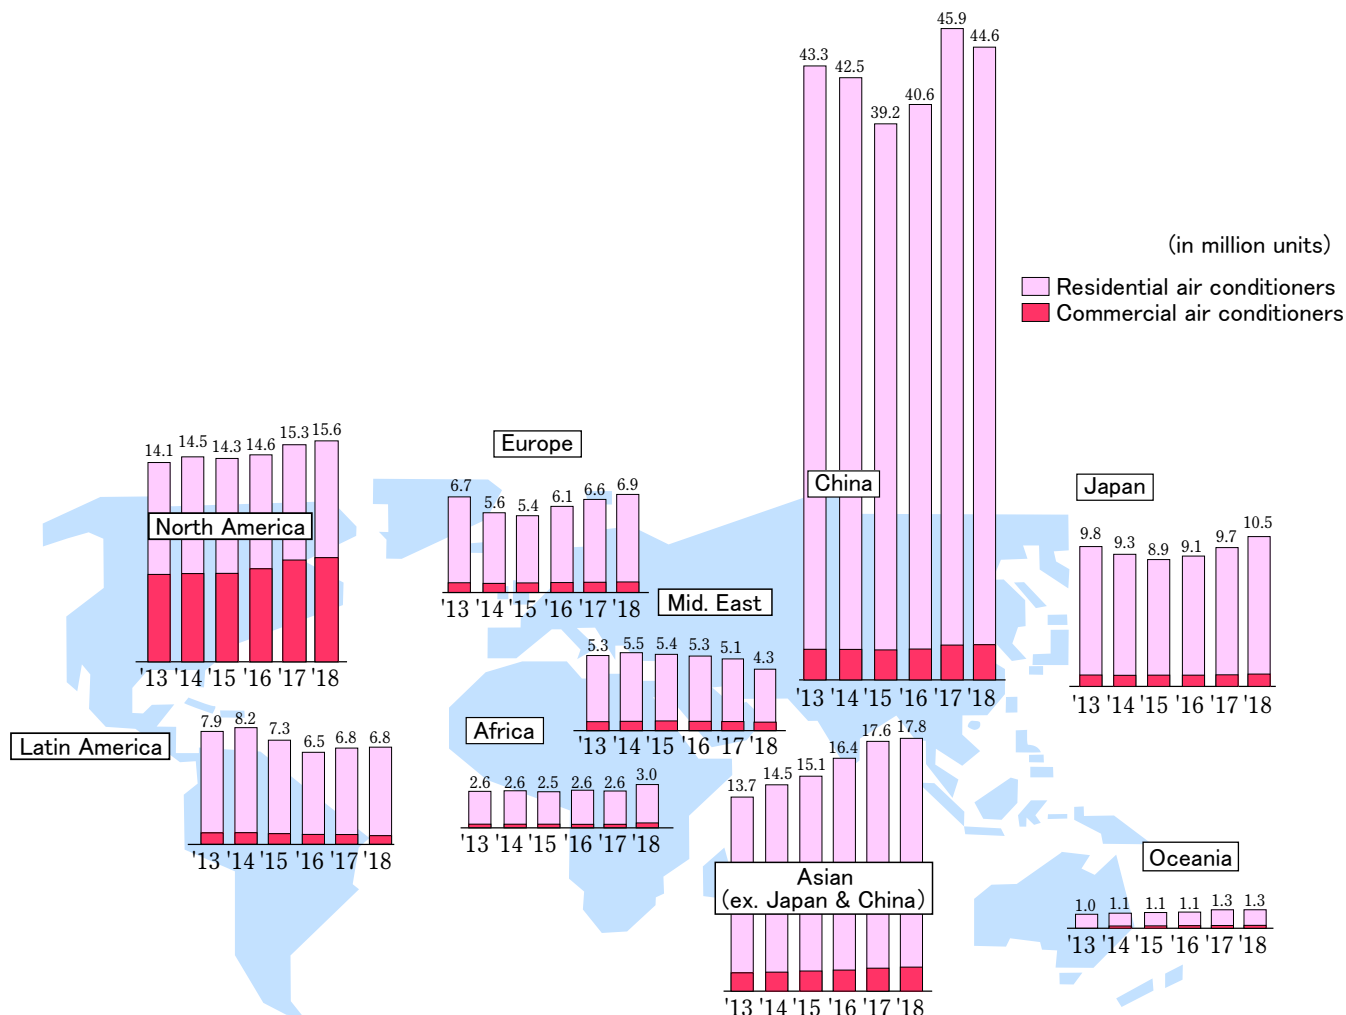

The 2018 world RAC demand is estimated to reach 96.07 million, which is the same as the previous year. The largest market is China, whose demand reached 42.15 million units with a 3% decrease. The second largest market is Asia, excluding Japan and China, whose demand reached 16.12 million units. The third largest market is Japan, whose demand reached 9.65 million units.

North America reached 8.24 million units, followed by Latin America with 6.23 million units, and Europe with 6.17 million.

3) “Commercial Air Conditioners”

The 2018 world Commercial Air Conditioners demand is estimated to reach 14.90 million units with a 2% increase compared with the previous year. The largest market is North America, whose demand reached 7.35 million units with a 2% increase. The second largest market is China, whose demand reached 2.48 million units. The third largest market is Asia, excluding the countries of Japan and China, whose demand reached 1.70 million units. Japan reached 0.87 million units, followed by Europe with 0.75 million units, and the Middle East with 0.6 million.

Note: The graph shows RAC and Commercial Air Conditioners demand by region

2. Target and Method to Survey

1) Scope and Division of Products

The targeted ACs are used for houses, buildings, and other structures, and completed units including heat pump types for both cooling and heating. Portable type ACs and fan coil units used for a hydronic system are excluded.

RAC demand consists of window type and small-sized split type ACs as well as residential-use multi systems.

Commercial Air Conditioners demand consists of commercial-use medium /large-sized split type ACs, remote condenser type ACs, single packaged ACs, and VRF systems, including unitary type ACs and unitary type heat pumps that are mainstream in North America.

2) Method to Survey

The JRAIA has collected and compiled the JRAIA market demand survey format reported by the member companies of the JRAIA's Air Conditioning Global Committee, and projected the estimated demand in each major market.

.....

- * "Asia in total": AC demand in Asia, excluding countries of Japan and China.
- * Period: from January to December in the calendar year
- * The AC demand in and before 2017 have been revised and adjusted as necessary.
- * The VRF demand in each country is shown only if country demand exceeds 3,000 units, but the VRF total in each area is the total demand of all countries in each area.
