

A young woman with dark hair, freckles, and a bright smile is the central focus. She is wearing a dark blue blazer over a purple collared shirt. The background is a blurred library or office space with bookshelves. A blue semi-transparent box on the left contains white text. Several overlapping circles in various shades of blue are scattered across the image.

PROQUEST DIALOG.

ProQuest®  
Dialog®

# SEARCH. FIND. SHARE. FUEL INNOVATION WITH PROQUEST DIALOG.

ProQuest Dialog™ presents the authoritative sources you expect, in an interface that adapts to the needs of any user. From the novice searcher to the skilled information professional and everyone in between, ProQuest Dialog points you to the critical information you need to make informed decisions and fuel new discoveries.

## **Complete, Reliable Sources You Expect**

Dialog pioneered the online information industry in the early 1970s, delivering content from the world's most authoritative sources. Today, ProQuest Dialog continues to be a market-leading provider of premium content — now in a user-friendly, flexible interface.

### **Precision Search For:**

Information professionals  
Scientists  
Engineers  
Patent searchers  
Healthcare professionals  
Food technologists  
Analysts  
Telecommunications and computer designers

### **Industry Expertise In:**

Aerospace and defense  
Automotive  
Diagnostics and medical devices  
Energy and environment  
Engineering and technology  
Food and agriculture  
Healthcare  
News and trade  
Pharmaceuticals and biomedicine  
Patents  
Telecommunications and computing

## Key Benefits:

- Access multidisciplinary premium content in a single interface.
- Find authoritative, relevant content quickly and easily.
- Organize and share search results with a few clicks.
- Choose from a variety of pricing options.
- Enable searchers of all skill levels.

### Intuitive Access to Information for Everyone

An effective search is only possible with the right tools. That's why ProQuest Dialog offers search functions for every skill level — Basic, Advanced, and Command Line searchers.

**Basic Search** works much like an open web search, with precision built in behind the scenes for end users. **Advanced Search** is a guided template-based search based on fields and limiters. **Command Line Search** allows information professionals to compose extremely precise searches to pinpoint the most relevant results.

Users can easily collaborate with each other on searches despite differences in skill levels and search types.

“It's a true rejuvenation of a valuable search service.” Information Today

### Sophisticated Workflow Tools You Need

ProQuest Dialog allows searchers of all skill levels to quickly find, organize, and share the right information through one-click options on the same interface. Download results, save searches, create custom reports, and more, with easy-to-use tools that facilitate collaboration and customization.

### Ongoing Training and Support You Deserve

Keep all your ProQuest Dialog users working efficiently with help from our world-class Global Customer Support team. From live web-based training to pre-recorded webinars, self-guided training modules to downloadable reference guides, ProQuest Dialog gives you limitless training resources to help you get the most from your search experience.

Need more hands-on help? Our trusted Search Specialists provide expert assistance to support your research needs at every step, including search consultation, technical support, and specialized training.

And getting started is simple. The ProQuest Dialog team has experience with implementations and transitions of all types. We'll help you build and refine your search strategy — and we have extensive experience transitioning alerts and saved searches.

### Flexible Pricing to Fit Any Budget

No two organizations are alike. So ProQuest Dialog offers content bundles and flexible pricing plans to meet your needs and your budget. The plans include:

- **Standard Transactional Plan** that works on a pay-as-you-go basis.
- **Commitment Plan** that offers discounts when you commit to a minimum annual contract value.
- **Choice and Site License Plans**, which offer flat rate subscriptions for specific databases or groups of databases.

These plans can be combined to provide a customized package to best suit the needs of your organization.

## Key Features:

- Large, multidisciplinary collection of content.
- Search that adapts to the user's level of expertise.
- Collaboration tools that let you download results, save searches, and create custom reports.
- Flexible pricing plans to work with any budget.

“ProQuest Dialog gives me the targeted information I need for my clients so I can fulfill their strategic needs.”

**Deb Hunt, Library Director  
and 2013 President,  
Special Libraries Association**

# CONFIDENCE IN YOUR SEARCH RESULTS.

## Research Tools for Pharmaceuticals and Biomedicine

Stay current and compliant with information that supports the diverse and stringent needs of the pharmaceutical industry.

### With ProQuest Dialog, you can:

- Confidently monitor adverse events and find precise data on drug reactions using a powerful alerting system.
- Track scientific developments, new products, competitor news, industry adoption, and broader industry trends.
- Protect R&D investments with timely information to react to key findings about your drugs or perform research on new therapeutic indications.
- Improve ROI with better insight into competitors' pipelines, strengths and weaknesses of compounds, potential business risks, and product and partnership opportunities.

Learn more about the ProQuest Dialog pharmaceuticals and biomedicine databases at [www.dialog.com/go/pharmabiomed](http://www.dialog.com/go/pharmabiomed).

## Research Tools for Engineers and Technologists

Discover the world's largest multidisciplinary collection of engineering and scitech databases, allowing you to easily search and track all major licensed and peer-reviewed engineering and scitech research.

### With ProQuest Dialog, you can:

- Identify the key authors and innovators in a particular engineering and technical domain via a combination of powerful indexing searches together with ranking tools and reports.
- Solve complex engineering and design challenges by finding solutions across the full spectrum of global engineering and scitech research.
- Conduct comprehensive non-patent literature searches across all engineering and scitech domains to support prior art searching.
- Track and monitor new research and identify emerging competitive threats to your business and R&D program.

Learn more about the ProQuest Dialog engineering and scitech databases at [www.dialog.com/go/engscitech](http://www.dialog.com/go/engscitech).

## Comprehensive Full-Text Patent Offering

You won't find a more comprehensive full-text patent collection anywhere. With ProQuest Dialog, you'll have access to three patent families, 33 full-text patent authorities, and bibliographic coverage from an additional 65. Using ProQuest Dialog, you can conduct thorough searches on ownership, due diligence, infringement, freedom to operate, and competitive intelligence.

### With ProQuest Dialog, you can:

- Search comprehensive prior art with classifications via multiple entry points including: search fields, browse look-ups, truncation on codes, lateral search from any patent indexing to find all patents by that code, and results filtering by class code.
- Find and track companies active in key areas of technology or identify top inventors. Determine who the top inventors are in an area and who owns the most patents. Create ranked lists that are formatted, editable, and ready for distribution.
- Monitor the competition with reports and alerting on the legal status of a patent family in one table.
- Conduct a thorough investigation of a patent with forward and backward citations, locating cited patents, and non-patent literature.

Learn more about the ProQuest Dialog full-text patent offering at [www.dialog.com/go/patents](http://www.dialog.com/go/patents).

## Comprehensive News and Trade Collection

ProQuest Dialog provides the most complete collection of news and trade press from the world's major licensed media publishers. Use ProQuest Dialog to stay abreast of competitor activity, monitor technological developments, track global market trends, and uncover experts in your field.

### With ProQuest Dialog, you can:

- Stay abreast of current competitor activity and new market entrants.
- Monitor technological developments, industry adoption, and trends.
- Find prospective customers and source the best suppliers and partners.
- Gather information on existing products and announcements.
- Identify "common law" use of product names.
- Track global market trends and opportunities.
- Uncover experts in your field to find potential consultants, employees, or expert witnesses.
