

List of supporting materials

The supporting materials are classified to seven categories and named as follows,

1. Relevant to system design, tracking and operation (Name : Reference T_xx)
2. Relevant to applications to Engineering Science (Name : Reference E_xx)
3. Relevant to applications to space-VLBI (Name : Reference S_xx)
4. Relevant to applications to Planetary Science (Name : Reference P_xx)
5. Relevant to applications to radio astronomy (Name : Reference R_xx)
6. Materials for publicity and explanation (Name : Reference M_xx)
7. Foreign Country publications (Name : Reference F_xx)

1. Relevant to system design, tracking and operation

Name : Reference T_xx
